Subject Re: FW: SWIM 2010 - FEB 21-25 Solicitation for Presenters

Thanks Shoren. I had not heard about this. I sent Mark a note to verify the dates. I will be in Juneau for a Greens Creek meeting Feb 22 and 23, then on to Seattle for your meeting on the 24th. If their meeting is in March I may be able present EPAs plan for the watershed assessment.

Curious if you are attending this and presenting on 404c?

Very best -

SB

Subject: Re: SWIM 2010 - March 17 & 18 - Solicitation for Presenters

Greetings,

The 17th Southwest Alaska Interagency Meeting (SWIM) is almost upon us.

The 2011 meeting will be held in Dillingham and will be hosted by the UAF Bristol Bay Campus (Todd Radenbaughtaradenbaugh@alaska.edu) and Togiak Refuge (mark_lisac@fws.gov). We want to know if you can make it.

The SWIM meeting was initiated in 1993 as an informal tool to promote better communication between groups and agencies studying and managing common fisheries resources in southwest Alaska. The meeting has been well attended in the past and is recognized as a great opportunity to meet and get feedback from other regional fisheries experts.

We are currently looking at the week of Feb 21-25. The meeting generally last two days with a late start on the first day and ending mid afternoon on the second to allow for easy travel. If you are interested in attending please indicate your availability at the Doodle survey site <http://doodle.com/7g7net2gsec4gf3z>.

We would encourage participants to bring a presentation of their fisheries work. Any format is acceptable - we will provide a powerpoint projector and can obtain other multimedia equipment as needed. Presentations may cover any topic you think would be relevant: management approaches, research findings, agency goals, program overview, research proposals, etc. Plan on 5-20 minutes total length. If you have a presentation and can send Todd and me a description we will assemble the agenda.

We have also in the past discussed special topics or had special presentations (Whirling disease; large mine permitting process, etc). If anyone has ideas along this line please pass them along.

I grabbed an old SWIM email that appeared to have an extensive list of contacts. If you notice someone who should be included - please forward this email to them and forward their contact info on to me.

Also - if you wish to be removed from this contact list let me know.

Thanks, hope to hear from you soon

Mark
